D) but one that had nothing to do with the transportation of people

D.) Part IV: Reading Comprehension

There are 15 reading comprehension questions. Read each passage carefully and find the best option.

Answer the following four questions according to the passage below.

The first scheduled air service began in Florida on January 1, 1914. Glenn Curtiss had designed a plane that could take off and land on water and thus could be built larger than any plane to date, because it did not need the heavy undercarriage required for landing on hard ground. Thomas Benoist, an auto parts maker, decided to build such a flying boat, or seaplane, for a service across Tampa Bay called the St. Petersburg - Tampa Air Boat Line. His first passenger was ex-St. Petersburg Mayor A.C. Pheil, who made the 18-mile trip in 23 minutes, a considerable improvement over the two-hour trip by boat. The single-plane service accommodated one passenger at a time, and the company charged a one-way fare of \$5. After operating two flights a day for four months, the company folded with the end of the winter tourist season.

1. It is clearly stated in the passage that,.....
 - A) Glenn Curtiss was the first passenger to fly
 - B) The first scheduled aircraft was a flying boat
 - C) The first return ticket fare was 5 \$
 - D) The first scheduled plane was designed to take off and land on water

E.) Part V: Cloze Test

There are 15 cloze test questions. Choose the best option to complete the text.
